

Version: 0.2.0

# react-native-rplus

## Installation

1. Copy the **react-native-rplus** folder to your project's root path.
2. Add the dependency in package.json

```
{
  "dependencies": {
    ...
    // Add following dependency
    "react-native-rplus": "file:react-native-rplus"
  },
}
```

3. Run `npm install` or `yarn install`

## How To Use

Import the library

```
import { startRPlus } from 'react-native-rplus';
```

Use the method to start rplus flow

### Start rplus Method

```
/**
 * Start rplus
 * @param clientId rplus client id
 * @param clientKey rplus client key
 * @param userAuth rplus userAuth
 * @returns true: success, false: fail
 */
startRPlus(clientId: string, clientKey: string, userAuth: string): Promise<Boolean>
```

### Example for start plus flow

```
startRPlus("xxx", "xxx", "xxx").then((result) => {});
```
